Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on 06/14/18 at 0846 hours:

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- Incident Management Teams (IMTs) transitioned on 06/16/18. The IMT Red Team started on 06/17/18.

Activations

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.
- [See California 9-1-1 System Slide](#)

COASTAL REGION

Beaver, Vegetation Fire, San Benito County

Location: Coalinga Hwy x Airline Hwy, East of King City

Jurisdiction: State DPA, SRA

Start Date/Time: 06/12/18 at 1504 hours

Per Cal OES Duty Officers and ICS-209 as of [06/17/18 at 1751 hours](#):

- 215 acres grass, [90%](#) contained
- Expected Containment: 06/18/18
- Minimal fire activity observed

INLAND REGION

Planada, Vegetation Fire, Merced County

Location: Doug Road and Bonner Road, Community of Planada

Jurisdiction: State DPA, SRA, Mariposa-Madera-Merced County

Start Date/Time: 06/15/18, 1030 hours

Per Cal OES Duty Officers and ICS-209 as of [06/17/18 at 1754 hours](#):

- [4,564 acres grass](#), [90%](#) contained
- Expected Containment: [06/19/18](#)
- Firefighters continue line improvement, mop up and patrol

No 911 Outages	No 911 Outages	No 911 Outages

911 Outages/Remote/Community Isolations:

SOUTHERN REGION

CHP-Inland Communications Center , Alternate Answer, San Bernardino and Riverside Counties (Final)

On 06/16/18 at 2007 hours, the California State Warning Center (CSWC) was notified by the CA 9-1-1 Branch that the CHP Inland Communications Center was in alternate answer status, with their calls being sent to CHP Indio Communications Center and CHP Barstow Communications Center.

- The outage began at approximately 1530 hours on 06/16/18.
- Jurisdictions Affected: San Bernardino and Riverside Counties
- Cause of Outage: Fiber Hut / Light Span Outage (A fiber hut is a small building that many telephone connections pass through before they get to the Central Office)
- AT&T reported a technician isolated the trouble to a failed card in the Light Span.
 - New cards were installed. Once replacement was complete, AT&T worked with the Network Operations Center (NOC), Direct Memory Access Controller (DMAC) and Frontier to restore the outage. A Frontier technician was also on site to assist with repairs.
- On 06/17/18 as of 0700 hours, the Southern Duty Officer (SDO) made contact with Duty Officers from both affected counties to assess if any rural areas were involved in the outage that may need assistance. There were no requests for assistance from the region and no unmet needs reported.
- As of 1335 hours, 06/17/18, CA 9-1-1 Branch advised that CHP Inland is back to full operation.
 - AT&T advised that the Light Span card at the Fiber Hut in Fontana was replaced and tested with Frontier.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

- Widespread windy conditions will result in high fire danger across most of Southeast California today, 06/17/18. Gusts will increase to 30-40 MPH during the afternoon hours.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Showers and Thunderstorms Today, Isolated on Monday ***

Low pressure over the region will begin moving east today, reaching far NE CA late in the day. Temperatures will be 7-12 degrees below normal and RH will remain fairly high today. Wind gusts will reach 20-30 mph this afternoon, out of the SW-W through the Bay Area and Delta across the west side of the Sierra and out of the NW-N over the higher terrain. Widespread showers and isolated thunderstorms are expected over the Cascade and Sierra ranges today, with a chance of showers and isolated thunderstorms into the northern Sacramento Valley and in the coastal mountains north of Clear Lake.

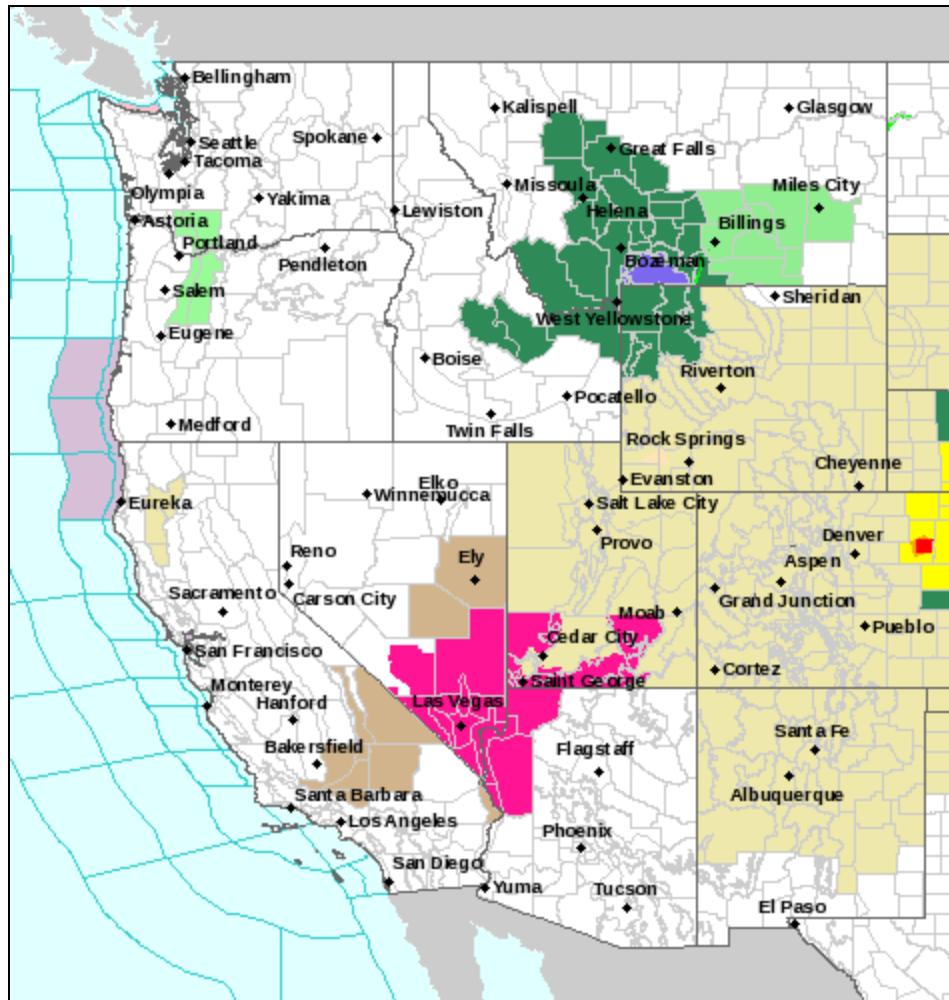

On Monday the low will reach southern Idaho and temperatures throughout the region will rebound to near normal. Relative humidity (RH) will still be fairly high and SW-NW gusts will reach 25-35 mph in the afternoon in coastal areas and through the Delta, and over the higher terrain. More showers and thunderstorms are expected, mainly in our far NE corner.

A high pressure ridge will move overhead Tuesday and Wednesday and boost temperatures up to 10 degrees above normal with light winds and low RH. Warm and dry conditions will continue Thursday as another trough begins to impact the coast. The trough will move overhead Friday and bring cooler and more humid conditions to all areas, but with gusty S-W winds.

SOUTHERN CALIFORNIA

An area of low pressure currently over Northern California will move into Northern Nevada today maintaining southwest to west winds of 20 to 40 mph with gusts 60 mph across the desert passes through this evening. The marine layer is very deep and it is bringing areas of drizzle from the coastal mountain slopes westward this morning. Temperatures will be 10 to 20 degrees below normal away from the coastal areas today, with upper 50s and 60s across the mountains and 70s to low 80s in the valleys. Significant warming and drying will occur Monday through Thursday as high pressure approaches from the southwest and eventually moves overhead. Temperatures will be well above normal by Tuesday and the warmer valley locations will reach 100 degrees by Wednesday. Minimum humidity will drop into the single digits and teens away from the coastal areas starting Wednesday. There will be little change in the hot and very dry conditions Friday through next weekend as high pressure remains in control. Northerly winds of 15 to 25 mph with gusts to 40 mph will surface across much of Santa Barbara County and the Grapevine Monday and Tuesday nights.
